Hair dryers are provided at the hotel. You will be able to charge laptops and cell phones if you purchase a suitable **plug adapter**. Can be purchased at Walmart; Kmart; Radio Shack or any other travel store. Know the difference between an adaptor and a converter [note: a converter is used to convert the voltage of an electric device. For example, if your hairdryer requires 110V, you will need a converter when traveling to Europe, which runs on 220V. An adapter allows you to plug your American two-pronged plug into a different outlet. Use this for dual-voltage devices; for example, your laptop computer and cell-phone charger.]
